

CHAPTER 14 / Map Your Community

In the box below, or on a separate sheet of paper, create a map of your world. Begin with your home, then map the places you inhabit on a regular basis (school, stores, centers for extra-curricular activities). Your map should include a compass rose, landmarks, major buildings, and street names. Then answer the questions that follow.

- (1) Do you live near the center of your community? If not, in which direction do you live?
- (2) Do most of your friends live within walking distance of your home?
- (3) What do you think is the most important place in your community? Explain your answer.
